

I spend 6 months each year in Florida and sincerely wish that this state had the same regulations as in NJ. We are constantly bombarded with rings that when answered there is no one on the line but also no dial tone. This us leads us to believe that this is some kind of electronic setup. Also receive calls from a telephone company wanting us to switch, calls from charitable (?) organizations who immediately hang up when asked to send their request in writing, and don't forget the calls telling us what prize we have won. And on and on it goes any time of day or evening. PLEASE HAVE ALL STATES CONFORM TO NJ LAWS TO MAKE LIFE EASIER FOR EVERYONE PUT IN THE POSITION OF ANSWERING THESE UNWANTED CALLS. Thank you for your consideration of this request
